Are you a **prospective student**? Then you should consider a bachelor/master's at European University, to create an indispensable, in-demand skillset, reinforced by an optional semester abroad through **Erasmus+** program.

We nurture a teamwork environment, inspiring constant self-improvement. Do you like to become a **progressive thinker, creative doer, game changer, visionary**, and **ground-breaker who never settle for mediocrity**? What more could you ask for?

What is more, research is integrated into education at every level, laying the groundwork for students to **embrace the scientific method** from the very first day of their studies.

Researchers are here working to bridge the gaps between: 1) **academia and the real world**, 2) **scientific disciplines**, and 3) **society as it is and society as it should be**.
